SUPPLEMENTAL INFORMATION:

Section 2 – Location and Description of Proposed Project

Description of manufacturing equipment and logistical distribution equipment

Hanson Logistics is a leading third party logistics service provider with state-of-the art transportation services and the 16th largest refrigerated warehouse network in the country, with 9 facilities in Michigan and Indiana and a total capacity of 39,000,000 cu. ft. of deep frozen, refrigerated and dry warehousing space. Hanson Logistics offers its customers the security of company-owned trucks, facilities and technology with the flexibility of non-asset services when structuring supply chain solutions for a growing number of food processors, distributors and retailers.

Logistical Distribution Equipment would include:

	<u>Estimated Cost</u>
● Refrigeration Equipment - Evaporators, condenser, piping & valves, etc.	\$ 1,500,000
● Storage Racking	1,100,000
● Underfloor heating systems	350,000
● Electrical distribution for Dock & Refrigeration	310,000
● Loading Dock Equipment	245,000
● Overhead Door Operators	25,000
● Other Miscellaneous	<u>70,000</u>
Total Estimated Cost	<u>\$ 3,600,000</u>

Section 3 – Estimate of Employees and Salaries as Result of Proposed Project

It is estimated that this third addition will employ approximately 15 additional teammates with an estimated annual payroll of \$490,000 when the addition is running at full capacity (approximately two years). Although not listed under Section 3, there will also be construction jobs retained during the construction of both additions during the time period each addition is being built. The third addition will probably retain an estimated 75 construction jobs at an estimated annual payroll of \$2,500,000. Also not included in Section 3 will be the possible employment of truck drivers for the Hanson fleet of trucks and possibly other local carriers in the area to service Hanson Logistics growth of its multi-vendor freight consolidation program run out of the Hobart facility.

Section 5 – Other Benefits

With the potential utilization of local subs and suppliers, Indiana sales tax revenue will increase through the purchase of goods and services (food, gas, etc.). All of the new hires for this addition would be hired locally (Northwest Indiana), not relocating from other Hanson facilities. This too, on an ongoing basis, will increase Indiana sales tax through the purchase of goods and services, as well as potential increases in property taxes. Our expansion could also potentially lead to a food manufacturer or processor locating in the area to be close to our refrigerated distribution center and transportation network. This addition could possibly lead to the hiring of truck drivers for the Hanson fleet of trucks and possibly local carriers hiring truck drivers to support the growth of our multi-vendor freight consolidation program out of Hobart. Hanson Cold Storage Co. of Indiana will provide reasonable advanced notice to the City of Hobart relating to any tax appeal on this property. If an appeal is filed, a copy of such will be provided to the City of Hobart.
