

## **2021 ADA Year End Report**

The City of Hobart had another productive year in regards to street and ADA improvements.

Through our annual paving plan and the Community Crossings Matching Grant Fund that we secured through INDOT, we spent a total of \$179,059.00 on ADA items. These items included adding and refurbishing curb ramps and sidewalks.

The areas that this work was done were:

- Driftwood Drive from 3<sup>rd</sup> Street to 49<sup>th</sup> Avenue
- Home Avenue from Michigan Avenue to Kelly Street
- 8<sup>th</sup> Street from Colorado Street to Wisconsin Street
- 3<sup>rd</sup> Street from Colorado Street to the western dead end

The City of Hobart did not use the sidewalk 50/50 program this year, but still accomplished a lot for ADA accessibility.
